CHAIRMAN'S REPORT
for the period from 20 December 2005 to 31 December 2006

On behalf of the Board of Directors, I have the privilege to present the first annual report of the Company which includes the audited financial statements for the period from 20 December 2005 to 31 December 2006.

As you are aware, since its incorporation during the last quarter of 2005 the Company has taken a number of steps in order to establish the hotel project which is intended to be built in the commercial area in midtown Manama. The initial approval from the ministry of Information has been obtained and the procedures of merging the two title deeds and transferring them to the company. The objective of all these procedures is to effectively start the execution of the project.

It is worth noting that during the last period, the company received bids from a number of specialised companies in the management of the project which has been reviewed by the board projects committee formed by the board of directors. Accordingly, "Nassar Engineering Services – Lebanon" has been appointed as the project manager to carry out all activities related to the project, including proposing the designers, internal designers and supervising the construction and execution.

The company also signed a management contract with Rotana Hotels Company, UAE in order to manage the hotel once it is completed. It is worth mentioning that Rotana Hotels Company is considered one of the well known companies in hotels management and it currently owns and runs a number of hotels in the Gulf, and it is also a major shareholder in Banader Hotels Company.

Further, the company – through the project manager – received a number of bids from a number of local and foreign designing companies to prepare the hotel design, and after studying those bids, "Mohammed Salahuddein Engineering Consultants" - a Bahraini company was chosen to undertake the design and to prepare the necessary engineering drawings and provide the total cost of the hotel. In addition "Jalal Mahmood Establishment" has been contracted to interior work.

It is worth noting that these bids were reviewed in details by the Board projects committee and the appropriate parties were selected, taking into account several factors, including the experience, reputation, cost and the time required to complete the work.

The consultant is currently preparing the project engineering designs, and we have come along good at this stage, and as you know a project design of this size requires the involvement of several relevant parties and discussion of all related matters in details, which resulted in changes and redrawing which took more time than was expected.

In this occasion, we would like to point out that the hotel project will be built on a piece of land of area 4,302 square meters owned by the company located in the eastern side of Batelco Commercial Centre near Bab Al-Bahrain in Manama, and it will consist of a hotel and hotel apartments. The total cost of the project has not been determined yet, since that depends on the final building design, and we hope to start the execution of the project during the second half of 2007.

In conclusion, we would like to confirm to our shareholders that the company, represented by the board of directors, is keen to complete the hotel project as soon as possible and to achieve a return on their investments in the company.

CHAIRMAN'S REPORT
for the period from 20 December 2005 to 31 December 2006

Also, we would like to give our sincere thanks to the Government, Ministries and Entities, especially Central Bank of Bahrain, the Ministry of Commerce and Industry, Bahrain Stock Exchange and the Ministry of Information for their support and help to the company to enable us to complete this project that, as we hope, will be a landmark in the commercial area in the centre of the capital. We also would like to thank all the company shareholders for their support, and hope that we live up to your expectations in the coming periods.

REPORT OF THE AUDITORS TO SHAREHOLDERS

Banader Hotels Company BSC

Manama, Kingdom of Bahrain

27 February 2007

Report on the financial statements

We have audited the accompanying financial statements of Banader Hotels Company BSC ("the Company"), which comprise the balance sheet as at 31 December 2006, the income statement, statement of changes in equity and statement of cash flows for the period then ended, and a summary of significant accounting policies and other explanatory notes.

Responsibility of the directors for the financial statements

The directors of the Company are responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards. This responsibility includes: designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditors' responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with relevant ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting principles used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as at 31 December 2006, and of its financial performance and its cash flows for the period then ended in accordance with International Financial Reporting Standards.

Report on other legal and regulatory requirements

In addition, in our opinion, the Company has maintained proper accounting records and the financial statements are in agreement therewith. We have reviewed the accompanying report of the chairman and confirm that the information contained therein is consistent with the financial statements. We are not aware of any violations of the Bahrain Commercial Companies Law 2001 or the terms of the Company's memorandum and articles of association having occurred during the period that might have had a material effect on the business of the Company or on its financial position. Satisfactory explanations and information have been provided to us by the management in response to all our requests.

NOTES**to the 2006 financial statements**

Bahraini dinars

1. STATUS AND OPERATIONS

Banader Hotels Company BSC ("the Company") is a Bahraini Shareholding Company registered in Bahrain in accordance with the provisions of the Bahrain Commercial Companies Law 2001 and operates under the commercial registration number 59045 obtained on 20 December 2005.

The principal activity of the Company is building and investing in hotels. These are the first financial statements of the Company covering the period from 20 December 2005 to 31 December 2006.

The Company issued an Initial Public Offering ("IPO") of 60 million shares valued at 100 fils each for public subscription starting from 2 October 2005 till 17 October 2005.

2. SIGNIFICANT ACCOUNTING POLICIES**a) Statement of compliance**

The financial statements have been prepared in accordance with the International Financial Reporting Standards (IFRS) and the requirements of the Bahrain Commercial Company Law 2001.

b) Basis of preparation

The financial statements have been drawn up from the accounting records of the Company under the historical cost convention.

c) Receivables

Receivables are recognised initially at cost, being their fair value and subsequently measured at amortised cost, less provision for impairment. A provision for impairment of receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of receivables. A provision is made when the carrying amount of the asset exceeds the present value of the estimated future cash flows, discounted at the effective interest rate. The amount of the provision is recognised in the income statement.

d) Interest income

Interest income includes interest on short-term deposits with banks.

e) Foreign currency*(i) Functional and presentation currency*

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates ("the functional currency"). The financial statements are presented in Bahraini Dinars, which is the Company's functional and presentation currency.

(ii) Transactions and balances

Monetary assets and liabilities are translated into Bahraini Dinars at exchange rates ruling at the balance sheet date. Transactions in foreign currencies during the period are converted at the rate ruling at that time. Foreign exchange gains and losses are recognized in the income statement.

NOTES**to the 2006 financial statements**

Bahraini dinars

2. *Significant accounting policies (continued)***f) Property, plant and equipment**

Items of property, plant and equipment are carried at cost less accumulated depreciation and any impairment losses. The cost of the properties and equipments includes the cost of bringing them to their present location and condition. Capital work-in-progress comprises the cost of properties and equipments that are not yet ready for their intended use before the balance sheet date. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date. An asset is written down immediately to its recoverable amount if its carrying amount is greater than its estimated recoverable amount.

(i) Subsequent cost

The Company recognises the carrying amount of an item of property, plant and equipment, and the cost of replacing part of such an item when that cost is incurred if it is probable that the future economic benefits embodied with the item will flow to the Company and the cost of the item can be measured reliably. All other costs are recognised in the income statement as an expense as incurred.

(ii) Depreciation

Land is not depreciated. Depreciation is charged to the income statement on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment as follows:

Plant and equipment	5 years
Motor vehicles	5 years

g) Impairment

The carrying amounts of the Company's assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. An impairment loss is recognized whenever the carrying amount of an asset exceeds its estimated recoverable amount. All impairment losses are recognized in the income statement. Impairment losses are reversed only if there is an indication that the impairment loss may no longer exist and there has been a change in the estimates used to determine the recoverable amount.

h) Employee benefits

Bahraini employees are covered by the General Organization for Social Insurance pension scheme to which employees and employers contribute monthly on a fixed-percentage-of-salaries basis. The Company's share of contributions to this funded scheme, which is a defined contribution scheme under IAS 19, is recognised as an expense in the income statement.

There were no expatriate employees during the period and as at 31 December 2006.

i) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, bank balances, and short term deposits with banks.

j) Trade payables

Trade payables are stated at their amortised cost.
